

Know the COVID-19 SYMPTOMS

The following symptoms may appear 2-14 days after exposure:

- Fever
- Cough
- Shortness of Breath

Other less common symptoms, such as nausea, vomiting and diarrhoea, may also occur. The severity of COVID-19 symptoms can range from very mild to severe. People who are older or who have pre-existing medical conditions, such as heart disease, lung disease, diabetes, obesity, kidney or liver disease, or who have compromised immune systems, are at higher risk of severe illness.

Seek medical advice if:

- You develop worsening symptoms
- You have been in close contact with a person known to have COVID-19
- You live in or have recently been in an on area with ongoing spread of COVID-19
